

## Just above the Arctic Circle lays Jokkmokk.

A beautiful destination in Swedish Lapland to spend your vacation. The forest covered in snow, the glassy lakes, the Midnight Sun during summer and the Northern Lights during winter are just a few of wonderful opportunities to enjoy during your vacation.

### Drive your own reindeer sled – 1 hour

#### Program;

After a beautiful tour by car (about 1 ½ hour) through the white snowy forest you come to Solberget, close to Nattavaara.

It is here your guide will meet you and where you are able to experience something special. How about steering your own reindeer sled?

Once you have received a short instruction how to handle your magical reindeer and sled, you will make a beautiful tour through the forest. The trees are most likely covered under a layer of thick snow, which makes it a magical landscape.

Turn off your mobile phones (except the camera 😊), turn off the mobile internet and other disturbing beeps and tones and relax. Just look at the reindeer finding it's way through the soft snow and enjoy!

Off course you have time to make pictures in the coral and during the tour.

\*\*\*After booking this tour we will provide you with instructions how to get there.
