

Just above the Arctic Circle lays Jokkmokk.

A beautiful destination in Swedish Lapland to spend your vacation. The forest covered in snow, the glassy lakes, the Midnight Sun during summer and the Northern Lights during winter are just a few of wonderful opportunities to enjoy during your vacation.

Drive your own reindeer sled – 2 hours

Program;

After a beautiful tour by car (about 1 ½ hour) through the white snowy forest you come to Solberget, close to Nattavaara.

It is here your guide will meet you and where you are able to experience something special. You are going to steer your own sled, and in front of that a cute and fluffy reindeer.

Once you have received a short instruction how to handle your magical reindeer and sled, you will make a beautiful tour through the forest. The trees are most likely covered under a layer of thick snow, which makes it a magical landscape. Totally relaxing, the silence, taking in the fresh air. Follow the slow movements of the reindeer and maybe you even dream a little bit how Santa would feel if he would be sitting on your sled.

Off course you have time to make pictures in the coral and during the tour.

***After booking this tour we will provide you with instructions how to get there.

Facts;

To be booked at least 1 day in advance

Winter season;

11th of Jan. - 15th Of April
