

Just above the Arctic Circle lays Jokkmokk.

A beautiful destination in Swedish Lapland to spend your vacation. The forest covered in snow, the glassy lakes, the Midnight Sun during summer and the Northern Lights during winter are just a few of wonderful opportunities to enjoy during your vacation.

Midwinter Northern Lights Experience

Enjoy the ride while you sit in the trailer behind a snowmobile and the guide steers you towards darker places.

The total event will last about 3 hours, incl. warm drink and snack

Program;

After you have met the guide you will receive a warm overall if your own clothes aren't warm enough. A short instruction follows how to sit safely in the trailer before we are on your way.

We are heading over the frozen lakes and through the snowy white forest. The snowmobile's illumination will make it enchanting.

When we arrive on a nice dark and quiet spot, you can listen to the sound of silence, hear the snow and ice crackling. If possible, we make a fire as well. Search the sky for beautiful stars and hopefully the Northern Lights will appear.

Even if we are unlucky and if we are not able to see the Northern Lights it will be a night to remember. To be outdoors in the winter-darkness, strange noises, feeling so small in a big, big world. It will leave a deep impression if you have never experienced it before.

Note; If the snow- or ice conditions are not good enough, we will go by car or minivan.

Facts;

To be booked in advance

Winter season;

15th of December till 30th of March

Start program; 20.00 PM
